

Dear Gentlemen/Ladies,

The Indiana No Call List should remain intact without allowing any further included groups such as banks represented by the Consumer Banking Association. Indiana's law is stronger than any federal mandate and has provided the citizens of this State "telephone peace of mind" thanks to the efforts of Attorney General Steve Carter. We voted him back into office with this cornerstone legislation fully in place and do not wish to see it altered/amended/weakened in any way. Please place these comments in your opposition materials.

Thank you,

Molly P. Seidel
